Since the 90’s, the Spectrum brand has been recognized and trusted throughout the medical industry. Our philosophy is: “Take care of the customer, and the rest will take care of itself.” By following this philosophy we have succeeded as a small business for more than twenty years and are recognized as a leader in the medical apparel and accessories industry.

Spectrum is proud to present our high quality, Ultra Soft Brushed™ Fabric at a more affordable price than our competitors. Spectrum offers a wide variety of colors, from the core colors to the latest color trends. Our company has added the newest technology to customize our products with the finest class of embroidery, emblems, and screen printing to create your brand identity.

As you review this catalog, keep in mind, we’re in business to make you look good.

CP300  
**BUCK HAMMER**

This Plastic Neurological Buck Hammer is equipped with a versatile dual mallet hammer with chrome plating and an 8.75” handle that integrates a pin on the bottom tip to elicit cutaneous reflexes.

![Buck Hammer Image]

---

CP400  
**STETHOSCOPE ID TAG**

This H-type designed stethoscope name tag helps to prevent lost or misplaced stethoscopes during critical situations. The ID tag attaches to the stethoscope easily without interfering with sound quality. This ID tag features a dual-sided writing surface which can help when identifying stethoscope by floor, unit or department. This product is latex-free.

![Stethoscope ID Tag Image]

---

CP500  
**TAYLOR PERCUSSION HAMMER**

The Taylor Percussion Hammer has a 7.5” weighted, chrome-plated, zinc alloy handle that is precisely balanced for increased percussion force control. The soft base and rounded apex of the rubber triangle are perfectly suited for provoking myotatic response when striking precise locations of tendons.

![Taylor Percussion Hammer Image]

---

CP600  
**DIAGNOSTIC PENLIGHT**

Diagnostic Penlight will effectively illuminate a patient’s eyes, ears, throat, and help measure pupil size and response time. The pen measures 5” long and includes 2 AAA batteries.

LM101
Littmann Lightweight II S.E. Stethoscope
This general-purpose, entry-level stethoscope is an excellent, affordable choice for basic blood-pressure and limited physical assessment. Littmann quality is apparent from the soft-sealing ear tips down to the combination bell/diaphragm chest piece.
• Two-year warranty

LM102
Littmann Classic II S.E. Stethoscope
Featuring a two-sided chest piece, this classic stethoscope offers high acoustic sensitivity for superior performance. A tunable diaphragm on one side augments the traditional bell function of the opposite side.

LM103
Littmann Cardiology III Stethoscope
The Littmann Cardiology III stethoscope offers two tunable diaphragms which allows the user to conveniently alternate between low- and high-frequency sounds without turning over the chest piece. The large side can be used for adult patients, while the small side is especially useful for pediatric or thin patients, around bandages, and for carotid assessment.
• Five-year warranty

LM104
Littmann Select Stethoscope
The Littmann Select stethoscope features a tunable diaphragm that allows the user to conveniently alternate between bell and diaphragm modes by applying simple pressure on the chest piece. Its reliable and clear acoustics offer an advantage to healthcare professionals when listening to heart, lung and blood pressure sounds.
• Two-year warranty
Littmann Master Cardiology Stethoscope

The Littmann Master Cardiology stethoscope offers a handcrafted stainless steel chest piece with the portable convenience of a single-sided stethoscope. The tunable diaphragm conveniently alternates between low- and high-frequency sounds with a simple pressure change on the chest piece. Additionally, the stethoscope comes with a special procedures adaptor or difficult site or

Littmann Electronic Stethoscope

3M’s new Ambient Noise Reduction technology reduces distracting room noise by an average of 75% without eliminating critical body sounds. This stethoscope is uniquely equipped to help you pick up difficult-to-hear heart, lung and other body sounds. This acoustic canceling effect is different from electronic filtering, which may also filter out some portions of body sounds clinicians need to hear. The versatile chest piece can accommodate infant, pediatric and adult patients, and it is ergonomically designed for easy hand manipulation and patient comfort. • Two-year warranty

Littmann Pediatric Stethoscope

The pediatric stethoscope features a 1-inch bell for an easier chest wall seal. Stainless steel chest pieces are optimally sized for pediatric auscultation. The solid stainless steel chest pieces on the 3M Littmann Classic II Pediatric Stethoscopes are optimally sized for your little patients. The small diaphragm conforms to the contours of pediatric bodies. • Two-year warranty
Spectrum sphygmomanometers have been a trusted choice of medical professionals because of their durability and ease of use. Show your support for Breast Cancer and Heart Disease Awareness with Spectrum’s special edition aneroid sphygmomanometers.

**SM109**

**Aneroid Sphygmomanometer**

This Aneroid Sphygmomanometer is a reliable tool for medical professionals. The cuff is made of durable nylon with index and range markings to ensure proper positioning. Nylon cuff is standard size. This product is equipped with a black inflation bulb, chrome-plated deflation valve with traditional thumb-screw air release, and a no-pin stop manometer gauge graduated to 300 mm Hg. The aneroid sphygmomanometer can be stored in the black-zippered carrying case that is included.

**SM123**

**Breast Cancer Awareness Aneroid Sphygmomanometer**

Bring awareness of breast cancer by using this Aneroid Sphygmomanometer with the iconic pink ribbon on the nylon cuff. The cuff is made of durable nylon with index and range markings to ensure proper positioning. Nylon cuff is standard size. This product is equipped with a black inflation bulb, chrome-plated deflation valve with traditional thumb-screw air release, and a no-pin stop manometer gauge graduated to 300 mm Hg. The aneroid sphygmomanometer can be stored in the included black-zippered carrying case with fashionable breast cancer awareness ribbon.

**SM124**

**Heart Disease Awareness Aneroid Sphygmomanometer**

Bring awareness of heart disease by using this Aneroid Sphygmomanometer with the “Get your heart pumping” slogan on the nylon cuff. Nylon cuff is standard size. The cuff is made of durable nylon with index and range markings to ensure proper positioning. This product is equipped with a black inflation bulb, chrome-plated deflation valve with traditional thumb-screw air release, and a no-pin stop manometer gauge graduated to 300 mm Hg. The aneroid sphygmomanometer can be stored in the black-zippered carrying case that is included.
Basic Combination Kits

When all you need are the basics, Spectrum has combined their bestselling aneroid sphygmomanometers and stethoscopes into combination kits, ideal for the student or professional who demands performance, versatility, and high-quality equipment you can depend on.

SM109 / SM100
Sphygmomanometer/ Dual Head Stethoscope
This set is a combination of our two most popular products. The Dual Head Stethoscope helps to seamlessly assist the Aneroid Sphygmomanometer when monitoring a patient’s blood pressure. This stethoscope is lightweight and provide superior sound transmission of high and low frequencies. You can’t go wrong with this duo.

SM109 / SM102
Sphygmomanometer/ Sprague Stethoscope
With this combination kit the iconic Sprague Stethoscope is a reliable assistant to the Aneroid Sphygmomanometer when monitoring a patient’s blood pressure. The sprague double-lumen tubing provides separate sound pathways to each ear for unrivaled accuracy.
Medical Accessories

With all the numerous tools medical professionals use daily, organizers are a helpful way to keep tools in order. Spectrum offers safety glasses, diagnostic penlights, and first aid masks to address your medical accessory needs.

**SM113**

**Belt Loop Organizer**

This Nylon Belt Loop Organizer fits comfortably on a belt loop. The front side of the organizer provides 3 slide-in pockets and 1 covered pocket with a velcro closure measuring 2” x 4”. A handy key ring is located on the front covered pocket. Velcro snap closures keep tools held in place while working. The back of the organizer provides 1 slide-in pocket measuring 5” x 4”.

Nylon Belt Loop Organizer is available in White and Navy Blue. Screen printing is available for 2.125” x 1.5” on the front side of the organizer.

**SM105**

**Nylon Belt Loop Organizer Kit with Tricolor pen, Penlight, and Scissors**

The style SM113 is complete with 5.5” surgical grade stainless steel bandage scissors, diagnostic penlight and tricolor chart pen (Black, Red, Blue). All of our pocket organizers fit comfortably on a belt loop. The front side of the organizer provides 3 slide-in pockets and 1 covered pocket with a velcro closure measuring 2” x 4”. A handy key ring is located on the front covered pocket. Velcro snap closures keep tools held in place while working. The back of the organizer provides 1 slide-in pocket measuring 5” x 4”. Nylon Belt Loop Organizer is available in White and Navy Blue. Screen printing is available for 2.125” x 1.5” on the front side of the organizer.

**SM112**

**Safety Glasses**

Safety Glasses provide durable front and side protection. The built-in brow guard helps to protect from overhead hazards. Safety glasses are adjustable at the temples in order to fit a wide range of users.

Available colors/patterns: Black, Plaid, Light Camouglage, and Dark Camouflage.
SM106
Disposable Diagnostic Pen Light
Disposable Diagnostic Penlight will effectively illuminate a patient’s eyes, ears, throat, and help measure pupil size and response time. The pen measures 4.5”. Pad Printing is available on the shaft of the pen.

SM321
Syringe Pen
These click-action Syringe Pens are a great promotional products that can be imprinted. The syringe pen is a ballpoint pen, liquid filled, and measures 5” in length. Medical promotional product are great for hospitals, pharmacy, doctors and nurses. These pens are liquid filled with fluid measurements on the side to resemble an actual syringe.

SM106B
Battery Operated Diagnostic Penlight
Diagnostic Penlight will effectively illuminate a patient’s eyes, ears, throat, and help measure pupil size and response time. The pen measures 5” and includes 2 AAA batteries. Pad Printing is available on the shaft of the pen.

KT-SF04
First Aid Mask
This CPR keychain face mask enables you to be prepared for any emergency situation. The face shield offers critical protection to both first responders and victims alike. The face mask measures 7.5” x 7.875” x .75”. The key chain measures 3” x 1.75” x 1.25”.

www.spectrumuniforms.com
Spectrum continues to use quality materials like surgical-grade stainless steel and thermoplastic elastomers for medical instruments like EMT scissors, bandage scissors, and a variety of neurological buck hammers. Bandage maintenance is more efficient when using EMT and bandage shears. Spectrum Neurological Buck Hammer and Taylor Percussion Hammers are perfectly suited for testing joint fractures and myotatic responses in patients.

**SM107**
7½” EMT Scissor
The 7½” EMT Scissors feature stainless steel upper and lower shear blades. There are serrations on the shear that are milled, not stamped, for cutting through tough material. Pad printing is available on the handle in an area of .31” x 1.5”. EMT Scissors are available in Black, Royal Blue, Red, and Yellow.

**SM118**
5½” Bandage Scissor
The 5½” Bandage Scissors are constructed of surgical-grade stainless steel. The angled tips on the blades are blunt to angle away from anything beneath the cutting surface and to keep scissor blades away from the body to prevent injury. These scissors are most often used for trimming bandages to a specific size, cutting through fabric, clothing, and gauze, and removing bandages that patients are wearing.
**SM111**
**Neurological Buck Hammer**
This Neurological Buck Hammer is equipped with a versatile dual mallet hammer, screw-in pointed tip and retractable brush suited for attaining myotatic and cutaneous responses (located on the top and bottom of the handle respectively). The balanced and weighted head is constructed of soft, thermoplastic rubber for percussions. The ergonomic, chrome-plated brass, 7” handle is precisely balanced for increased force control of chest percussion.

**SM111T**
**Taylor Percussion Hammer**
The Taylor Percussion Hammer has a 7.5” weighted chrome-plated zinc alloy handle that is precisely balanced for increased percussion force control. The triangle-shaped rubber head is firmly secure midway between the apex and base. The soft base and rounded apex of the rubber triangle is perfectly suited for provoking myotatic response when striking precise locations of tendons. The handle is designed with a pointed tip for eliciting cutaneous and plantar reflexes. The rubber triangle is also well-suited for obtaining chest sounds and percussion of the abdomen.

**SM111B**
**Plastic Neurological Buck Hammer**
This Plastic Neurological Buck Hammer is equipped with a versatile dual mallet hammer with chrome-plating and an 8.75” handle that integrates a pin on the bottom tip to elicit cutaneous reflexes. This product is available in Black, Red, Royal Blue, and Yellow.
Professional Gifts

Spectrum has great gift options for nurses and medical professionals. These gifts are a perfect way to celebrate and appreciate the medical professional in your life.

SM122

Size Chart

Don’t know your size? Finding out exactly what size is right for you is simple with our convenient size charts.

Determine your size

To measure accurately, keep the tape measure taut, but don’t pull it tight. Get a friend to help, if possible. Measure over well-fitting undergarments.

Bust / Chest: Measure around fullest part of chest, keeping tape parallel to the floor.
Waist: Bend to side; measure where body curves - even if you wear your pants lower.
Hips: With feet shoulder-width apart, measure fullest part of hip/thigh area.

Note: Body measurements should be taken using a standard measuring tape. Take all measurements loosely to accommodate wearing ease.
